RAVING SOFTWARE IS SDVOSB AND EDWOSB CERTIFIED

## Core Competencies

Raving Software is full-service software development agency built on the principles of service and stewardship.

- **Our Goals:** To deliver consistently exceptional service and solutions that will take our clients to their next level of success while also contributing to our community through support for STEM education.
- **Our Values:** Our company has a "Plus One" ethic, meaning we go a step above client expectations when it comes to our operations, products, and client relationships.
- **Our Team:** We work with our clients to deliver powerful IT solutions, including leading-edge website design, e-commerce solutions, internet marketing through social media and SEO services, copywriting services, graphics design, and much more.

## Differentiators

- Our diversely skilled team is dedicated to creating cutting-edge software solutions for our clients and providing a positive experience from conception to launch.
- We facilitate consistent communication between our team and our clients, allowing us to present a transparent production process.
- We see our clients as unique individuals, so we produce solutions tailored specifically for each client.
- We share our passion for software development through donating 10% of net profits to STEM scholarships.
